The Luminous Leo: A Cousin's Journey in 2014.

I began conversing with Leo, and I had the desire to meet him, strengthen our bond, and further develop our friendship. One of the reasons behind this was to make my cousin Arnold jealous since I didn't have anyone my age among my cousins. While Aishu was there, she had a straightforward personality that didn't quite click with me. Epshi was the only girl cousin I had, but I struggled to get along with anyone else.

Arnold and my cousin Angel had a close relationship because they were the same age and had many shared interests. They would often tease me along with Ronald and Agshieal, referring to me as a "chillra" (young girl). In this context, I longed to be able to contact Leo and explore a connection with him.
